

ARRINGTON CONSULTANTS CAPABILITY STATEMENT

ARRINGTON CONSULTANTS

CAPABILITY STATEMENT

UEI: CJGBJ94DK2L1

CAGE: 135F0

COMPANY OVERVIEW

Arrington Consultants provides tailored business consulting, coaching, and healthcare-IT implementation services. We partner with small and mid-sized organizations to launch, scale, and modernize operations combining personalized coaching with hands-on technical execution. Our mission is to deliver measurable growth while treating every client's vision as our own.

KEY DIFFERENTIATORS

- Personalized, partner-style delivery—solutions crafted to your unique vision and goals.
- Proven reliability & security: near-100% uptime on AKS microservices; maintained 0% vulnerability rate across 7 services via continuous remediation and image audits.
- Measured impact: +50% throughput and -70% DB load through PostgreSQL tuning and shared-service refactors.
- Modern engineering & governance: event-driven architectures (Azure Service Bus/AMQP), IaC (Terraform), CI/CD; policy as code with OPA/Rego; HIPAA-aware practices.

PAST PERFORMANCES

- Orchestrated event-driven microservices on AKS with secure file handling via Azure Blob, sustaining near-100% uptime.
- Migrated 13 legacy authorization policies into OPA/Rego, simplifying access control and strengthening security posture.
- Tuned PostgreSQL and refactored shared services to achieve +50% throughput and -70% DB load.
- Built clinician-focused training and go-live frameworks that improved adoption and time-to-productivity.

CERTIFICATION

- Epic inpatient implementation experience (build, testing, cutover, go-live support) (experience-based; not affiliated with or endorsed by Epic Systems)
- Azure/Kubernetes, PostgreSQL, CI/CD, Terraform, OPA/Rego; vulnerability management and security reviews
- HIPAA-aware processes; training development and delivery

COMPANY DATA

Company: Arrington Consultants

Address: 11201 Shaker Blvd., STE. 202 #106, Cleveland, OH 44104
